

CONSTRUCTION

VULCAN COMPATIBLE

ELECTRICAL MAINTENANCE

Construction trades in Virtual Reality

Immerse your learners into the construction trades with virtual reality. Mimbus Construct enables effective training for the construction professions while recognizing achievements with Open Badges.

BENEFITS

-  Offer an engaging new educational resource
-  Recognize skills with Open Badges
-  Identify risk factors on a worksite
-  Learn to manage emergency situations
-  Increase job appeal with an innovative recruitment tool

TRAINING MODULES

1

Pathway Light:
the learner replaces the bulb of an exterior pathway light, following safety standards.

2

Signage Lighting:
the learner installs an exterior signage light, like a pharmacy cross, using a boom lift.

3

Floodlight:
the learner replaces a bulb on a floodlight.

SKILLS ASSESSMENT

PROTECTION

Ability to identify and select the correct PPE before entering the worksite

SAFETY

Ability to quickly move to safety when confronted with a hazard

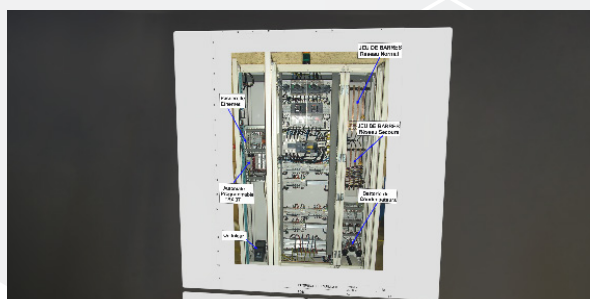

QUALITY OF EXECUTION

Ability to apply rules and procedures in a constrained environment

COMMUNICATION

Ability to communicate with colleagues

Images are non-contractual
